**Gross Direct Premiums Written
for Health Insurance, 2019, 2020 and 2021:
Top 250 Insurer Groups Worldwide**

Insuramore's analysis of gross direct premiums written (GDPW) for health insurance of insurer groups in 2021 – with comparative data also provided for 2019 and 2020 – covers up to the top 250 groups worldwide by this measure. Together, these 250 groups accounted for an estimated 96% of total global GDPW for this line in 2021.

Health insurance is defined as medical expenses and hospitalization insurance including dental, vision and hearing cover but excluding accident, critical illness, disability income (income protection) and long-term care insurance.

For insurer groups with financial year ends that occur in a month other than December, Insuramore presents data that includes a part of 2022 (e.g. end of March 2022 for many Japan-based groups).

In 2021, the top 250 insurer groups by this measure segmented by type and by home region as shown in the charts overleaf.

Source: Insuramore research and estimates based on insurer group disclosures and insurance trade statistics (i.e. financial supervisory authorities, insurance trade associations etc.)

Segmentation by Type and by Home Region of the Top 250 Insurer Groups Worldwide as Measured by Gross Direct Premiums Written for Health Insurance, 2021
